### **Pilot Training Forum 2018 – “Pathways to the Runway: Nurturing Flying Professionals in Hong Kong”: *Joining Instructions***

Airlines across the globe are expanding their fleets and flight schedules to satisfy demand generated by global economic expansion. The aviation industry continues to address these challenges by creating balanced, sustainable solutions to fill future pilot pipelines. Regional markets that have relied heavily on recruiting pilots from outside their home locations are increasingly seeking to recruit, train, and develop locally sourced pilots. The two aircraft manufacturing giants, Boeing and Airbus, have forecasted the need for as many as 617,000 new pilots by the time of 2035. The huge manpower demand implies unprecedented opportunities in the field. To help developing young personnel as future flying professionals, this Forum aims to invite experts from Australia and Hong Kong to share the latest trends on pilot training topics. The details are confirmed as follows:
